

**ENERVEN®****Connecting you with tomorrow**

Renewables

Together, we're building the infrastructure that powers tomorrow.

Enerven's commitment to safety, sustainability, and excellence in execution ensures that all renewable energy projects are delivered on time, on budget, and in full compliance with all relevant standards. The company's rigorous safety protocols and commitment to continuous improvement make it a trusted partner in the renewable energy space.

Battery Energy Storage Systems

- Enerven has extensive experience in end-to-end BESS design, delivery and maintenance
- Enerven can provide the full EPC service
- We are battery agnostic so can work with all clients
- Enerven has a long history of developing and de-risking projects through our Early Contractor Involvement process.

Virtual Power Plants

- Ability to deliver VPP projects quickly, to a high standard and safely
- Battery supplier agnostic
- Strongly established procurement processes, professional project management, outstanding engineering
- Enabling homeowners, businesses, and utilities to manage renewable energy generation, storage, and consumption

Wind farm and solar farm connections

- Enerven can deliver complex electrical infrastructure projects to support connection of large-scale renewable energy projects
- Civil, structural, primary plant, secondary systems, telecommunication works, OPGW installation and transmission line terminal tower works.

Electrical Balance of Plant solutions

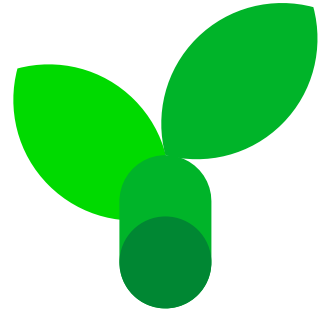

- Turnkey electrical balance of plant solutions

Electric vehicle recharge stations

- Design and construction of electric vehicle recharge stations

Asset inspections, maintenance and repairs

- Using cutting edge techniques such as RPA and live line handling
- Fast, reliable emergency responses nationwide

Enerven is at the forefront of delivering cutting edge **renewables infrastructure.**

Why choose us

- We are leaders in renewable energy solutions
- Proven experience as a trusted partner in delivering renewable technologies
- Highest quality end to end services from expert in-house design, commissioning and maintenance
- We maintain your assets with a view for long term performance
- Fast, responsive emergency repairs and inspections including RPA and bare hand live line repairs
- Our people are the driving force behind our success, you can have confidence in quality when you choose Enerven

**We deliver solutions
from design,
procurement, building
and maintaining -
including emergency
responses and repairs**
